PRODUCT HIGHLIGHTS

- Strong performance west to east across region
- Good plant type across varying conditions
- Great standability and IDC tolerance

FIRST IN THE FIELD!

MATURITY & CHARACTERISTICS

Maturity 00.9
Trait Enlist E3
CHU 2525
Plant Height M
Plant Type Intermediate
Emergence 1.5
Standability 1.7
IDC 1.9
Flower Color P
Pod Color LB
Hilum Color BF
Pubescence Color G

DISEASE & PEST TOLERANCE

SCN S
PRR gene 1c
PRR Field Tolerance 2.1
White Mold 2.2

CHARACTERISTICS

EMERGENCE 1.5
STANDABILITY 1.7
IDC 1.9
PRR FIELD TOLERANCE 2.1
WHITE MOLD 2.2

ALWAYS READ AND FOLLOW, IRMA, WHERE APPLICABLE, GRAIN MARKETING, STEWARDSHIP PRACTICES AND PESTICIDE LABEL DIRECTIONS. Glyphosate herbicides will kill crops that are not tolerant to glyphosate. Dicamba herbicides will kill crops that are not tolerant to dicamba. Acceleron®, Genuity®, Roundup Ready 2 Xtend®, Roundup Ready 2 Yield®, Roundup Ready PLUS®, Roundup Ready®, Roundup®, SR Design®, VaporGrip®, and YrendMax® are trademarks of Monsanto Technology LLC. Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible. Not all dicamba Formulations are approved for in-crop use in all states.

To plant Enlist seed, you must have a limited license from Dow AgroSciences LLC (or other appropriate affiliates). In consideration of the foregoing, Dow AgroSciences grants to the Grower the limited license to use its technology to produce only a single commercial crop in the United States under the terms and conditions set forth in the Technology Use Agreement in effect at the time of planting of this seed.

Always read and follow herbicide label directions prior to use. Enlist™ products contain the Enlist trait that provides crop safety for use of labeled over-the-top applications of glyphosate, glufosinate and 2,4-D herbicides featuring Colex-D® technology when applied according to label directions. Following burndown, the only 2,4-D containing herbicide products that may be used with Enlist™ crops are products that feature Colex-D technology and are expressly labeled for use on Enlist crops. 2,4-D products that do not contain Colex-D technology are not authorized for use in conjunction with Enlist products.

Enlist E3™ soybeans were jointly developed by Dow AgroSciences LLC and MS Technologies, LLC. ®™ Enlist, Enlist E3, the Enlist E3 logo, and Colex-D are trademarks of The Dow Chemical Company (“Dow”) or an affiliated company of Dow. Excellence Through Stewardship is a registered trademark of Excellence Through Stewardship.
