

<b>US SOYBEAN</b>	
<b>5605 LLN BRAND</b>	<b>0.5 RM</b>

**PRODUCT HIGHLIGHTS**

- Excellent yield and consistent yield across growing conditions
- Solid defense with SCN and good PRR field tolerance
- Good IDC and stress tolerance

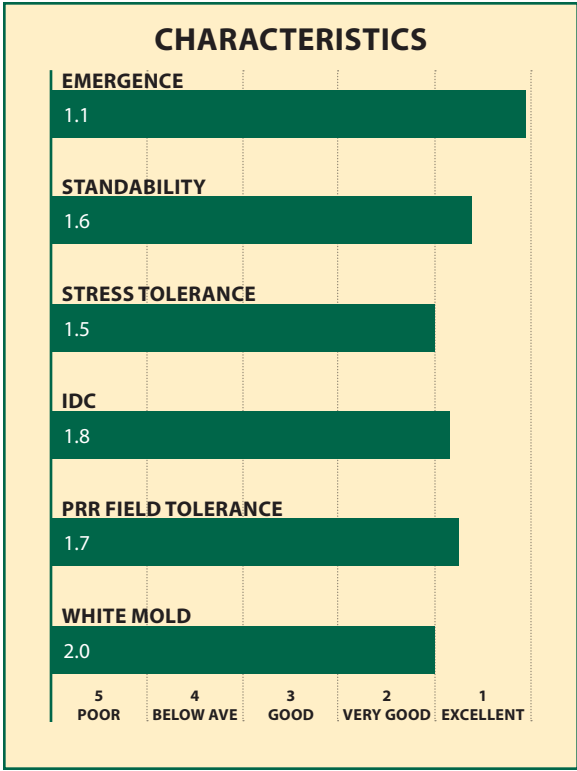

**FIRST IN THE FIELD!**

**MATURITY & CHARACTERISTICS**

Maturity	0.5
Trait	LL
Plant Height	M
Plant Type	Intermediate
Emergence	1.1
Standability	1.6
Stress Tolerance	1.5
IDC	1.8

**DISEASE & PEST TOLERANCE**

SCN	R
PRR gene	-
PRR Field Tolerance	1.7
White Mold	2.0

Plant Height	Scale	SCN
S Short	1 Excellent	R Resistant
MS Medium Short	2 Very Good	MR Moderately Resistant
M Medium	3 Good	MS Moderately Susceptible
MT Medium Tall	4 Below Average	S Susceptible
T Tall	5 Poor	

The LibertyLink® system is the simply better solution for a stronger yield and superior weed control. Proven by over 2,100 observations across the Midwest, Delta, Northeast and Southeast in the 2016 Official Variety Trials, LibertyLink has a 2+ bu/ac advantage over Asgrow® Roundup Ready 2 Xtend® soybeans.\* Plus, LibertyLink was ranked the No. 1 soybean system in 2017 by growers. \*Yield shown summarizes average of LibertyLink and Asgrow RR2Xtend varieties entered. Endorsement or recommendation by the universities is not implied. 2017 Soybean Trait Intentions market research. LibertyLink and the Water Droplet Design are registered trademarks of BASF. ©2018 BASF Corporation. All Rights Reserved. APN 18-INT-0014. Asgrow and Roundup Ready 2 Xtend are registered trademarks of Monsanto Technology LLC. The LibertyLink® system enables growers to use powerful Liberty®, the only working nonselective herbicide that is effective on tough-to-control grasses and broadleaf weeds, for over-the-top use on over 50 million LibertyLink-enabled corn hybrid acres with Herculex®, Genuity® SmartStax® and Agrisure® hybrids with corn-borer protection.\* The LibertyLink system is the simply better solution built upon high-performing genetics and superior weed control for a stronger yield. \*The active ingredient in Liberty is a Group 10 herbicide, which is the only broad-spectrum herbicide that effectively controls grasses and broadleaf weeds, and it has no known resistance in U.S. broadacre crops. Always read and follow label directions. Liberty, LibertyLink, and the Water Droplet Design are registered trademarks of BASF. Liberty is not registered for use in all states. ©2018 BASF Corporation.
