

TS THUNDERMAX FFC

ABOUT

Ideal for hay and grazing systems. Tap root, disease resistant variety designed for superior quality and persistence. Winter hardiness, rapid regrowth, and disease resistance ensures long –term productivity.

Thunder Max FFC is our premier alfalfa. A brand of alfalfa that exhibits strong yield, quality, and persistence data. A very recognizable alfalfa with its rich dark green color. Thunder Max FFC will give top hay producers a choice that gives them yield and quality. Truly an alfalfa brand for long term stands.

This is a coated/inoculated product.
